On-Site Recording

If you're a small business owner, social media influencer, can't make it in to the studio to record, or is intimidated and unfamiliar with the podcast recording process, we can help. We will come to your location with our mobile recording rig and record your podcast. With our ear for sound, customer service background and state-of-the-art equipment, we guarantee you a smooth, painless experience and delivery of a high-fidelity audio recording.

Cost: \$200 per episode — we can batch record/schedule the recording of several episodes in the same day.

Services included:

- Recording of a 1-hour podcast episode.
- Delivery of up to 4 separate tracks of audio recorded at 16bit/48khz.
- Full stereo recording of episode recorded at 16bit/48khz.
- Use of 4 microphones.
- Use of desktop microphone stands or boom arms (so you can be hands free).
- Microphone cables.
- Use of a phone patch in case you need to record an interview with someone from another city or state.
- 4 sets of headphones.
- Photos taken of you and your guest(s) for use on social media.

Our on-site recording service does not include editing or additional post-production services.

Podcast Consultation

Have questions about starting a podcast, or the podcast production process? **I can help.** Hire me to help you launch a podcast or put processes in place to ensure a smoother podcast workflow, from pre-production through to recording, editing and publishing.

Cost: \$97 per hour for phone and video conferencing sessions; **\$125 per hour** for in-person sessions.

Eric Montgomery is the founder and chief engineer at The Podcast Haven (est. 2016). As a recording professional, Eric spent many years recording voice overs (V.O.) for TV, video games, commercials and radio. To date, he has worked on hundreds of projects and over 1,000 podcast episodes. Past clients include The Food Network, Nickelodeon, The Hallmark Channel, Adult Swim, Podcast One and Wondery, among others.
